**To Julian Assange, Co-Founder of Wikileaks**

Gelsenkirchen (Germany), 9.12.10

Dear Julian Assange,

in the name of the Marxist-Leninist Party of Germany (Marxistisch-Leninistische Partei Deutschlands – MLPD) I declare our solidarity for you and the critical internet platform Wikileaks against the international campaign of criminalization, calumny and repression. We declare our protest against the arbitrariness of your incarceration and support the demand for your immediate release.

With the exposure of imperialist war crimes in Iraq and Afghanistan as well as of the arrogant claim of sole reign and supremacy of the US diplomacy Wikileaks has gained great merit in the critical information of the worldwide public.

While worldwide acting the role of the guardians of the holy grail of human rights, the imperialists now act in a coordinated way in the style of the "War against Terror" against the freedom of expression. We protest against the battle constructed from dubious incriminations and further measures of psychological warfare, of secret service activities, an Interpol-manhunt, the shutting down of web space, the boycott by banks and payment systems etc.

Accusations of sexual aggressions must be seriously verified and must not be taken lightly. The actual administrative proceedings against you follow purely political motives, in order to silence you.

Therefore we appreciate the wave of international solidarity for you as well as the publications in your favor which are currently organized and to which we will contribute ourselves.

Solidarity greetings

Peter Weispfenning  
Central Committee of MLPD
